

## **Immunizations Requirements** *(Including Hearing and Vision)*

### **Immunizations**

Immunizations are required as established by the Texas Health and Human Services. Those requirements can be found at [www.dshs.texas.gov/immunizations/school](http://www.dshs.texas.gov/immunizations/school)

### **Hearing and Vision**

All students who are four years old during the first semester of school each year will have their vision and hearing screened as required by the Texas State Health Department. If your child turns four years old after our school year has begun, you will be required to have your child screened at their 4 year old well-check appointment and provide the school with the screening results.
